education

Master of Design, Major in New Media Design

National Institute of Design | 2015-17

Bachelor of Engineering, Major in Computer Science

Gujarat Technological University | 2009 - 2013

experience

Designer, Developer and Maker

Adobe India Pvt Ltd | May 2017 - Present

- I bring ideas to life by rapidly iterating through hypothesis, design, prototyping, and validation; with a keen focus on emerging technologies and newer interaction media.
- Working seamlessly with Technology and Design to come up with new Ideas which can be implemented in Adobe Creative Cloud products such as Illustrator.

Freelance Designer and Developer

Jan 2010 - Present

- Responsible for designing and developing variety of Hardware products, Mobile Apps and Ecosystem
- Designed and Developed Android app of Jail Management System for Los Angeles Police Department (LAPD) and Healthcare Management System for California Forensic Management Group (CFMG).

Social Work

Teaching - Programming

I teach applied programming to kids/teens at various NGOs; who are poor and not able to spend money on coaching classes.

I work for my community to make apps and products which can make their life easy and keep them together as community.
